EXAMINER'S AMENDMENT

1. The following is an examiner's statement of reasons for allowance:

The apparatus is allowable because the prior art does not teach or suggest a pin having first and second conical ends connected to a portion of a first device; and a bushing connected to a second device having an opening; and wherein the opening is large enough to allow the pin and the portion of the first device to pass through the bushing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art of Record

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Wezenberg (5,031,794) teaches a container having a pin with a conical end that attaches to a container wall.
